

**HHT FOUNDATION INTERNATIONAL**  
**YOUNG INVESTIGATOR AWARD**

The mission of the Hereditary Hemorrhagic Telangiectasia (HHT) Foundation International is to find a cure for HHT. The HHT Foundation International (HFI) has announced a new young investigator award competition for 2008.

Young investigators in training or within the first three years of academic appointment are eligible to apply. The HHT Foundation is particularly interested in funding young investigators performing clinical, basic or translational research related to HHT.

One award will be granted, for \$20,000 US, for June 2008.

Letters of intent (LOI) are mandatory, and are treated with confidentiality by the HFI and its reviewers. The LOI should be a maximum of 1 page and be submitted electronically to [research@hht.org](mailto:research@hht.org).

**Letter of Intent Deadline: February 2, 2008**                      **11:59PM EST**

**Application Submission Deadline: March 29, 2008**                      **11:59 PM EST**

The electronic application form can be requested by emailing [research@hht.org](mailto:research@hht.org).
