

**Epstein-Barr Virus Lymphoproliferative Disease (EBV LPD) in Non-
Immunocompromised Hosts
September 8-9, 2008**

**Sponsored by the Office of Rare Diseases
Natcher Building 45, Room F1/F2 National Institutes of Health**

Day / Time	Speaker or Chair	Topic
Day 1		
8:30 – 9:00	J Cohen & ES Jaffe	Introduction: Charge to the Participants & Dedication
Session I	Chrs: G Miller/ J Sixbey	Biology of EBV B cell lymphoproliferative disease
9:00-9:30	E. Kieff	Perspective of the Virus
9:30-10:00	G Tosato	The Host Cytokine Response
10:00-10:30	R Khanna	The Host Cellular Immune Response
10:30-10:45	K Bhatia	Variations of the virus in EBV + LPDs – significance and implications
10:45-11:00	Break	
Session II	Chrs: NL Harris / YH Ko	Acute and Chronic EBV syndromes of B cells
11:00-11:30	J. Cohen	Chronic active/ persistent EBV infection of B-cells
11:30-12:00	S. Nakamura	Age-associated EBV-associated B-cell lymphomas
12:00-12:15	ES Jaffe	Non-neoplastic EBV-reactivation syndromes in adults – Pathological & biological features
12:15-1:15	Lunch	
1:15-1:30	K. Dunleavy	Lymphomatoid granulomatosis
1:30-2:00	SH Swerdlow	PTLD – differences and similarities
2:00-2:30	Chrs. S Pittaluga & L Weiss	Panel Discussion: Classification and Spectrum of EBV + B-cell proliferations
2:30-2:45	Break	
Session III	Chrs: M Piris / T Yoshino	Acute and Chronic EBV syndromes of T cells
2:45-3:15	H Kimura	Chronic Active EBV syndromes in Asia – Clinical features
3:15-3:30	K Oshima	Chronic Active EBV syndromes in Asia – Pathological features
3:30-3:45	Quintanilla-Martinez	Systemic EBV-associated T-LPD of childhood-comparisons with CAEBV
3:45-4:00	C. Barrionuevo	Hydroa vaccineforme –like lymphoma
4:00-4:15	Young-Hyeh Ko	EBV+ T-cell proliferations in children and adults
4:15-4:30	Zhou Xiaoge	EBV+ T-cell proliferations in China
4:30-5:15	Chrs:	Panel Discussion: Classification of EBV+ T-cell

	JKC Chan / J Jones	proliferations
--	---------------------------	----------------

Epstein-Barr Virus Lymphoproliferative Disease (EBV LPD) in Non-Immunocompromised Hosts, cont.

Day 2	Speaker or Chair	Topic
	Chrs: JKC Chan / J Jones	Conclusions and summary from Day 1
8:30-9:00	ES Jaffe	Proposals for classification & discussion
Session IV	S. Kenney/ R. Little	Therapy & Complications of EBV related lymphoproliferative diseases
9:00 - 9:30	J Sullivan	EBV-related hemophagocytic syndromes
9:30 - 9:45	WH Wilson	Non-neoplastic EBV-reactivation syndromes in adults – Clinical Features and Management
9:45 - 10:00	Break	
10:00-10:30	C Rooney	EBV-specific T cell infusions
10:30-11:00	H Heslop	Bone marrow or hematopoietic stem cell transplantation
11:00-11:30	WH Wilson	Novel therapies
11:30-12:00	R Ambinder	Novel therapies
12:00-12:30	Chrs. R Yarchoan K Rao	Panel Discussion: Future approaches to novel therapies
12:30-1:00	Conclusion J Cohen & ES Jaffe	Discussion: Action Items for Group
1:00-2:00	Lunch Break	
2:15-4:00	ES Jaffe	Informal pathology review for pathologists and clinicians to be held in the Laboratory of Pathology, Clinical Center. Multi-headed scope and video projection available for all participants Participants are invited to bring representative cases for review and discussion
4:15	Adjournment
