

**Session 6: Agenda 2020**

MODERATORS: THE SPEAKERS

17:30-18:00

Basic and translational research  
Guidelines for clinical handling  
Registries and epidemiology  
Patient participation in clinical research  
Surgical and other treatment options

**Sunday, 8 May 2011**

---

**Patient association programme**

**Part II - Meeting Conclusions for Patient Associations**

MODERATOR: MARK BECKWITH

08:30-10:00

We will summarize all we have learned, both from the other patient associations and from the experts, and formulate a plan for collaboration in the future.

More LCMN-related research will be presented at the  
**International Pigment Cell Conference 2011**  
in Bordeaux, France

21-24 September 2011

# International Expert Meeting for Large Congenital Melanocytic Nevi and Neurocutaneous Melanocytosis

---

*Friday May 6<sup>th</sup> – Saturday May 7<sup>th</sup>, 2011*

DEPARTMENT OF DERMATOLOGY

UNIVERSITY OF TÜBINGEN, GERMANY

Sponsored by:

**Department of Dermatology, University of Tübingen, Germany**

**Morgan Family Foundation**

**National Institutes of Health**

**National Institute of Arthritis and Musculoskeletal and Skin Diseases**

**Office of Rare Disease Research**

**Nevus Outreach, Incorporated**

Friday, 6 May 2011

---

## Patient association programme

### Part I - Welcome and Familiarization

MODERATOR: MARK BECKWITH

10:00 - 12:00 We would like to learn as much as possible about each other's organizations. What do you do well? What do you do not-so-well? Any group wishing to contribute to this discussion will be allowed ten minutes to present and seven PowerPoint slides (we already have commitments from three groups who want to talk here). At the end we will have discuss on about how one group's successful idea might help another group overcome a weakness.

## Expert programme

### 13:30 Welcome addresses

#### Session 1: Overview and neurological aspects of CMN

MODERATORS: HELMUT BREUNINGER AND SVEN KRENGEL

13:45-14:20 Rudolf Happle: A fresh look at congenital melanocytic nevi

14:25-14:55 Ashfaq Marghoob: Risks and management of large congenital melanocytic nevi

15:00-15:25 Alon Scope: Dermoscopy and confocal reflectance microscopy in the surveillance of congenital melanocytic nevi

15:30-15:55 Yasmin Khakoo: Spectrum of neurological dysfunction in neurocutaneous melanocytosis

16:00-16:25 Marcos Tatagiba: Meningeal melanocytoma – a neurosurgical point of view

### Coffee break

#### Session 2: Integrating the LCMN patient experience

MODERATORS: ASHFAQ MARGHOOB AND MARK BECKWITH

17:05-17:35 Mark Beckwith: Patient groups: International initiatives

17:40-18:05 Ornella Masnari, Markus Landolt: Stigma experiences in children and adolescents with a facial difference

18:10-18:35 Harper Price: A cooperative international registry of CMN and NCM

### Organizational remarks

Saturday, 7 May 2011

---

## Expert programme

### Session 3: Biological bases of LCMN

MODERATORS: HEATHER ETCHEVERS AND RUDOLF HAPPLE

09:00-09:35 Miguel Reyes-Múgica: The neurocristopathies: a pathologist's viewpoint

09:40-10:05 Heather Etchevers: Signalling pathways in neural crest and early melanocyte development

10:10-10:35 Bernhard Wehrle-Haller: The k t-ligand/c-k t receptor interaction: potential therapies for pigmented lesions

10:40-11:05 Veronica Kinsler: The genetics of congenital melanocytic naevi

### Coffee break

#### Session 4: Surgical options for LCMN treatment

MODERATORS: RAINER ROMPEL AND CLEMENS SCHIESTL

11:30-12:00 Clemens Schiestl and Thomas Biedermann: Tissue engineering of skin: best wishes from the petri dishes

12:05-12:30 Rainer Rompel: Indications and long-term results of dermabrasion

12:35-13:00 Helmut Breuninger: Early treatment of large congenital melanocytic nevi by serial power stretching of the skin with intracutaneous butterfly sutures under high tension.

13:05-13:40 Bruce Bauer: The role of tissue expansion in the treatment of large and giant congenital melanocytic nevi

### Lunch

#### Session 5: Syndromic aspects of inappropriate proliferation

MODERATORS: HENNING HAMM AND VERONICA KINSLER

15:00-15:30 Sven Krengel: Childhood melanoma: a distinct entity?

15:35-16:00 Pierre Heimann: Cytogenetic alterations and BRAF/NRAS mutations in congenital melanocytic nevi

16:05-16:30 Jürgen Bauer / Gisela Metzler: Proliferative nodules - clinical, histological and molecular diagnosis

16:30-16:50 Veronica Kinsler: Endocrinological aspects of CMN syndrome

16:55-17:25 Alain Taïeb: Future therapies: lessons from vitiligo and melanoma
